Shanghai, January 26th 1949

It is with very sincere regret that I have to announce to our readers, on behalf of the BUREAU OF DOCUMENTATION, that owing to circumstances the publication of the MONTHLY BULLETIN will be suspended after this issue.

To allow fuller utilisation of the mass of documentation contained in the Documents, Studies and Annexes published over more than two years in the Bulletin, the present issue consists of a detailed Analytical Index of the subjects covered. We hope that this may enable the Bulletin to take a permanent place as a work of reference on economic questions in China during a transition period of more than ordinary interest.

The suspension of the Bulletin will not in any way affect the other work of the BUREAU OF DOCUMENTATION: the methodical filing of economic news and articles and the research work on Chinese economic problems and legislation, carried on for the last ten years, will continue as before. If our former subscribers and friends wish to make use of our files it will give us great pleasure to answer their enquiries as we have done hitherto. We hope also that we shall still be able to put at their disposal careful and accurate translations of any new laws or regulations seriously affecting economic life in China.

In conclusion, may I take this opportunity, again in the name of all the staff of the Bureau, of expressing our appreciation of the cooperation we have received and of the interest shown in our Studies and translations by Research Institutes, business circles and many technical Reviews abroad.

E.S. de Brouvery
Director
BUREAU OF DOCUMENTATION

P.S. Those whose subscriptions were paid at a later date than January 1948 are asked to let us know whether they wish the outstanding amount to be returned to them or if they would prefer to receive back the Bulletin to carry back their set the corresponding numbers of months.
